EVERY DAY IS INTERNET SECURITY DAY
 by David Rodgers, Social Security District Manager in Covington, Virginia

Being safe online is important every day. There may be days devoted to internet security awareness, but you need to be careful every time you go online. Do you know what it takes to be safe online? You probably connect daily to get information, shop, socialize, or work. Every time you go online, you need to avoid the risk of theft or fraud. Here are some tips to use while visiting the Social Security website and the other websites you use.

- o Use Strong Passwords--Strong passwords have at least eight characters and include capital letters, numbers, and non-letter characters. These passwords make it harder for someone to hack your account.
- o Don't Recycle Passwords--Although it requires effort to think of new passwords constantly, it provides safety when you do. What if you use the same password for every site and you lose your password? If someone finds it, they could get access to all your accounts. Many people choose to reuse -- don't be one of them.
- o Take Advantage of Multifactor Authentication--Many websites offer the option to use a second factor--or method--in addition to just a username and password to ensure that only you access your information. Using more than one factor to establish identity makes it harder for someone to get into your account and steal your personal information. Beginning June 10, 2017, Social Security requires multifactor authentication to access a my Social Security account. Customers choose whether to receive a one-time security code to either their phone or email in order create a new account or sign into their account. Visit this link to find out more about how to secure your personal my Social Security account: www.socialsecurity.gov/myaccount/verifyandprotectid.html. Consider using multifactor authentication whenever it's offered to protect your information.
- o Read Scam Alerts--For information about fraudulent activities related to Social Security, you can find information at our blog Social Security Matters under the Newsroom section at blog.socialsecurity.gov. One way to avoid identity theft is to create your own my Social Security account, if you haven't already. When you have an account, no one else can set up an account using your information. Social Security's Office of the Inspector General investigates fraud involving Social Security and they publish Fraud Advisories at oig.ssa.gov/newsroom/news-release. The Federal Trade Commission website publishes information about scams that appear in the news at www.consumer.ftc.gov/scam-alerts. You'll want to be aware of current scams to avoid being tricked.
- o Review Your Online Accounts and Credit Reports--Just as you review your earnings record with Social Security for accuracy at <http://www.socialsecurity.gov/myaccount>, you should review your bank and credit card accounts for accuracy. Get a free copy of your credit report available annually from the three credit reporting agencies (Experian, Equifax, and Transunion) at www.annualcreditreport.com/ and check it for incorrect entries. Protecting your identity can be daunting. Guarding your personal information requires investing some time, but is worth it. Discourage theft and fraud by adopting these security practices when you use the internet.

Sunday school 10 a.m., Morning worship 11 a.m.

2017 West Virginia Historic Preservation Awards Nominations
 Preservation Alliance of West Virginia is taking nominations for the 2017 West Virginia Historic Preservation Awards, which will be announced during the 9th Annual Historic Preservation Awards Banquet. This special awards ceremony will be on Saturday, September 30, 2017, at the Municipal Auditorium in Charleston and will feature a performance of Hank Williams' tunes by Rob McNurlin and a keynote speech from Patrick Seymour of the Theatre Historical Society of America. All award winners receive free entry into the event.

Nomination award categories include significant achievements in preservation, heritage tourism, historic landscape preservation, community preservation, and others. A full list of award categories is listed on the nomination form.

To submit a nomination, simply download and complete the nomination form, which can be found on the PAWV blog page at <http://wp.me/p2Df8-Cjt>, or call 304-345-6005 for more information.

The guidelines are:
 • All nominations are due by July 31, 2017 (Monday).
 • Submit a completed nomination form via email and send to info@pawv.org
 • Submit at least 3 photos -- larger than 1 MB in size -- of the project nomination with your nomination form.

A special nominating committee consisting of Preservation Alliance board members and staff will select and notify the awardees, as well as the nominators of the nomination status. All are welcome to submit nominations and attend the banquet. Nominators can submit more than one nomination but must submit one nomination per award. For information on award recipients from previous years, visit <http://pawv.org/awards.htm>.

The Preservation Alliance of West Virginia is the statewide nonprofit organization dedicated to historic preservation in our Mountain State. It coordinates the Preserve WV AmeriCorps program and provides technical assistance for historic preservation projects.

We're Here To Help

Losing someone you love is never easy. But we can help you cope with the difficult details that planning a dignified memorial service often entails. And no matter what your faith, we promise to perform the type of service you want, at a price you can afford. Please feel free to call us anytime at 772-5335 to discuss your personal wishes.
